Conference Synopsis

As the world moves toward 70 percent urbanization by 2050, expansive planning needs to be undertaken now, in order to ensure that cities can be places where **people can thrive**. To achieve this, we need to integrate tall buildings into the **urban and societal fabric** as never before. Transportation, public facilities, open space and commercial functions all need to be holistically synchronized and pivoted toward positive, sustainable outcomes for a much **broader swath of society**.

The 2020 CTBUH Conference, *Humanizing High Density – People, Nature & the Urban Realm*, focuses on the essential question of how high-density can support **equitable and healthy** living, working and social well-being. It brings issues of livability to the forefront of the discourse about future cities, concerned with achieving equity in housing, making better **social spaces** at multiple horizons, reducing carbon emissions, mitigating the effects of climate change, and development that is appropriate for local **environmental and cultural conditions**.

There is no better place to have this urgent conversation about tomorrow than in Singapore. The city-state has committed to improving **quality of life** for all citizens, while still achieving economic success. High investment in equitable, affordable housing and integrated communities, combined with concerted efforts to create public space at height, and to advance the proven benefits of greenery on the human psyche, have paid off.

The world can learn much from Singapore, even if not all its achievements and policies are replicable elsewhere. Its strategies have been successful because they are deeply embedded in **unified government policy** that affects the entire built environment. All cities can improve the alignment of societal, economic, and sustainability goals to generate better outcomes. As a world-class destination, and a **living laboratory of urban experimentation**, there is no substitute for experiencing it first-hand. We therefore invite you to join CTBUH in Singapore in the autumn of 2020, to join the vital conversation on “Humanizing High Density.”

Conference Summary

Dates

19–23 October 2020

Core Venue

Marina Bay Sands

Anticipated Audience

Final Abstract Submission	15 April
Final Poster Submission	1 September
Final PPT Submission	23 September

Registration Deadlines

Early Bird Registration	Before 5 June 2020
Regular Rate Registration	5 June to 12 August
Late Registration	13 August onwards

For the full synopsis, see

CTBUHconference.com/synopsis

Themes & Call for Involvement

The 2020 conference will convene speaking and poster presentations, panel discussions, program rooms, and themed tracks focused within the overall conference theme: **Humanizing High Density—People, Nature & the Urban Realm**. After a plenary session each morning, several parallel tracks will take place.

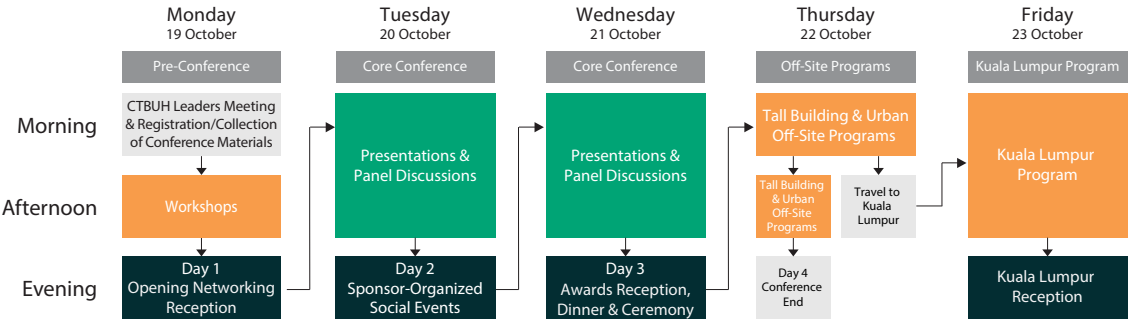

CTBUH Members* of all disciplines interested in presenting at the event are encouraged to submit an abstract. Abstracts should ideally relate directly to the conference theme. To reinforce this, submitters will be asked to select a subtopic from a list provided by CTBUH, which aligns most closely to their abstract topic. However, as the CTBUH annual conference always embraces and accommodates a wide range of disciplines—a small percentage of abstracts with topics outside of the conference theme and stated subtopics may be accepted.

All abstracts will be subject to peer review before possible acceptance into the conference program. For each accepted abstract/paper, **one** author will be eligible to present at the conference. Only the author that will present will be eligible to register for the conference at the subsidized presenter registration rate.

For more information, visit:
ctbuhconference.com/abstract-submission/

**All presenters at the 2020 conference must be CTBUH members at either the organizational or individual level. If interested in presenting at the conference, then you must first become a member, contact Carolina Hernandez at chernandez@ctbuh.org.
NOTE: Becoming a member does not guarantee your abstract will be accepted.*

Program Overview

Why Attend

As the recognized international authority on tall buildings, CTBUH conferences differ significantly from the many commercial conferences now being held around the world, in terms of both quality of knowledge-sharing and networking opportunities*. Dissemination of best-practice information is of primary importance at every CTBUH conference. Thus, every presentation is substantiated by an abstract and all delegates receive a PDF of every conference presentation. In addition, a collated archive of all conference materials will be available to delegates.

Further benefits include:

- Learn from distinguished experts on the latest in tall buildings, infrastructure and urban development
- Gain knowledge and insight in the latest thinking on sustainability
- Network with top, internationally-influential industry leaders
- Develop collaborative partnerships and business leads
- Earn Continuing Professional Education Credits
- Better understand the business opportunities in Southeast Asia & Internationally
- Promote your company through sponsorship
- Influence best-practice thinking and policy making
- Experience the dynamic cities of Singapore and Kuala Lumpur
- Tour seminal tall buildings and urban spaces (completed and under construction)
- Enjoy hworking events at top venues
- Experience the multi-national, multi-disciplinary network of the CTBUH

**See industry leader endorsement on rear cover.*

Who Should Attend

Colleagues from all disciplines with a connection to tall buildings and urban habitat are encouraged to attend, including the following professions:

- Building Owners & Managers
- Building Funders & Developers
- Building Occupiers and Tenants
- Contractors & Construction Firms
- National & Local Government Officials
- Code & Regulatory Authorities
- Architects & Urban Planners
- Engineers (all disciplines)
- Cost Consultants & Surveyors
- Insurers & Legal Firms
- Project/Construction Managers
- Fire & Life Safety Professionals
- Geotechnical/Foundation Firms
- Material & Building System Suppliers
- Transport, Infrastructure & Landscape Companies
- Building Façade Design Firms
- Elevator Consultants/Suppliers
- Energy Companies
- NGOs & Academics

Core Venue

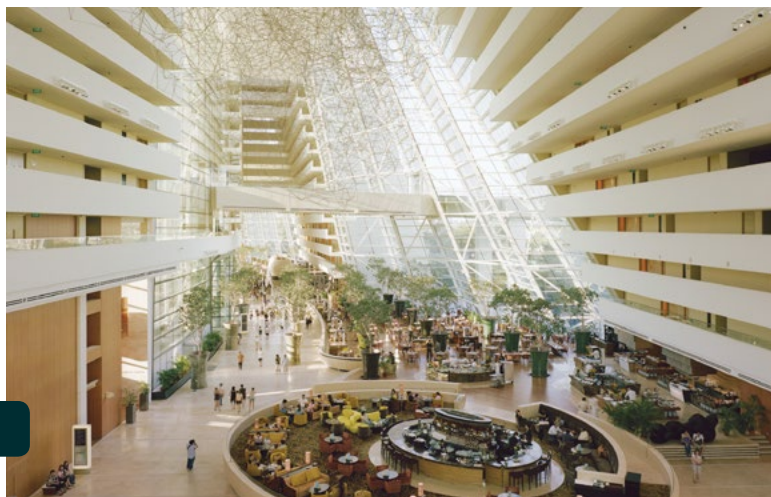

Marina Bay Sands

The core conference will be held at Marina Bay Sands, a three-tower complex topped by a one-hectare SkyPark located 200 meters above the sea, which accommodates a public observatory, infinity pool, and offers sweeping panoramic views of the city. Completed in 2010, the design approach for the Marina Bay Sands complex was not as a building project, but as a microcosm of a city—rooted in Singapore's culture, climate and contemporary life.

Conveniently located across the water from Singapore's CBD, Marina Bay Sands is a high-density, mixed-use integrated resort that brings together a 2,560-room hotel, a convention center, shopping and dining, theaters, museum, and a casino. At the ground level, the space between each tower is enclosed to create a hotel lobby and atrium, at the upper levels the space is conceived as an "urban window" that allows for views through the project. The core conference will take place in the Sands Expo and Convention Center, with accommodation offered at the complex's hotel towers.

Very favorable, negotiated rates at the conference hotel mean that you can stay in this prime location during the conference for highly competitive rates.

In particular, as a non-profit organization, CTBUH has to guarantee a minimum number of rooms at the hotel, so delegates are urged to help reduce this risk to the Council by please staying at the conference hotel.

Visit [CTBUHconference.com/venue](https://ctbuhconference.com/venue) for hotel rates and booking.

Social Events

The social networking events are always a highlight of CTBUH conferences, excellent for business networking as well as catching up with colleagues and friends. Typically located along the upper floors of a seminal skyscraper, CTBUH networking receptions provide attendees with an unforgettable experience, taking advantage of incredible views of the city's geographic surroundings and expansive urban context. Past venues have included Willis Tower, Chicago (2019), Burj Khalifa, Dubai (2018), International Towers, Sydney (2017), Ping An Finance Center, Shenzhen (2016), and One World Trade Center, New York City (2015). There will be two major receptions as part of the conference, as well as a night for sponsors to host their own social event and invite delegates.

Opening Day Networking Reception

Monday, 19 October

Venue TBD

Day 2 Sponsor-Organized Social Events

Tuesday, 20 October

Venues TBD

Day 3 Awards Reception, Dinner & Ceremony

Wednesday, 21 October

Venue TBD

Sponsor a Social Event!

Contact **Natalie Schoetz**, CTBUH Business Development Coordinator, for more information: nschoetz@ctbuh.org.

Delegates network at the top of China Resources Tower during the VIP Reception of the 2019 Tall + Urban Innovation Conference in Shenzhen.

Delegates mingle on the roof of 33 Alfred Street, Sydney during the opening VIP Reception of the CTBUH 2017 Conference in Australia.

Day 1 Workshops

The first afternoon of the conference will be dedicated to half-day Workshops on specific, topical subjects. These workshops will be hosted by sponsors at the conference venue. The purpose of each workshop is to:

- Establish the most salient issues, challenges, and trends
- Develop recommendations for standardized methods and establish criteria for categorization
- Create or expand a CTBUH International Committee on the subject
- Work towards the production of a CTBUH Technical Guide

Sponsor a Workshop!

Contact **Natalie Schoetz**, CTBUH Business Development Coordinator, for more information: nschoetz@ctbuh.org.

The following are examples of Workshops from the most recent conferences in Chicago, USA and Dubai, UAE:

- Future of the Workplace
- High-Rise Residential
- Modular High-Rise Construction
- Net-Zero Energy Skyscrapers
- PassivHaus for High-Rise
- Seismic Considerations & Damping
- Skyspaces
- Smart Cities
- Smart Solutions
- Tall Timber
- The Urban Context for Tall
- Vertical + Horizontal Landscaping
- Tall Building Structures
- Whole Building Sustainability
- Wind Engineering

These recent CTBUH Technical Guides are all a direct result of various CTBUH Working Groups and Workshops.

Day 4 Off-Site Programs

The fourth day of the conference will be dedicated to Off-Site Programs, which will take place across buildings, urban spaces, infrastructure hubs, and key developments throughout Singapore. Delegates register in advance for two different programs, morning and afternoon, from a selection of options. In each program, delegates will hear from colleagues on a specific theme related to the program location through on-site presentations, followed by extensive tours of the sites led by professionals involved in the projects.

Recent Off-Site Programs at CTBUH Conferences include:

- 875 North Michigan Avenue (formerly John Hancock Center), Chicago, 2019: *Explore the World's First Mixed-Use Supertall*
- Vista Tower, Chicago, 2019: *Creating Connections*
- Burj Khalifa, Dubai, 2018: *Iconic Towers as Development Catalysts*
- One Central Park, Sydney, 2017: *Greening the City*
- Pearl River Tower, Guangzhou, 2016: *Harnessing Energy in Tall Buildings*
- 432 Park Avenue, New York, 2015: *The World's Most Slender Tall Building*
- Shanghai Tower, Shanghai, 2014: *Delivering the World's Tallest Double-Skin Façade*
- 30 St. Mary Axe/Swiss Re Tower, London, 2013: *Creating a Modern Icon for a Historic Financial Center*

Sponsor an Off-Site Program!

Contact **Natalie Schoetz**, CTBUH Business Development Coordinator, for more information: nschoetz@ctbuh.org.

Day 5 Kuala Lumpur Regional Program

Delegates will have the opportunity to experience Kuala Lumpur on Day 5 of the Conference, where they will engage in a rich program that explores premier developments, infrastructure hubs, and cultural sites amidst the city's warm, tropical rainforest climate and vibrant street life.

With modest beginnings as a tin-mining outpost in the 1880s, the city has grown into a major education, technology, banking and energy-industry hub. It now commands one of the most dynamic skylines in Asia, with the new Exchange 106 and Merdaka PNB 118 towers joining the renowned Petronas Twin Towers. The Kuala Lumpur has made major investments in transportation infrastructure, and in ensuring that new developments preserve the hybrid culture of its traditional kampungs (neighborhoods). The modern airport is connected to downtown by a dedicated express train, and an array of rail and monorail services radiates across the metro area.

The Kuala Lumpur regional city program (with transportation and accommodation paid by the delegate) will incorporate two half-day segments that focus on unique themes, each progressing from a presentation format to expansive tours, site visits, and technical demonstrations.

Sponsor the Kuala Lumpur Program!

Contact **Natalie Schoetz**, CTBUH Business Development Coordinator, for more information: nschoetz@ctbuh.org.

Notes:

- Days 2 & 3 core Conference: Two full days of conference sessions in Singapore (Tuesday & Wednesday), including all tracks + 2 lunches + 6 coffee breaks.
- The academic rate is intended to support full-time university professors. It does not apply to professionals working in practice who also teach part-time. To qualify, you must be an active CTBUH Academic Member and will be required to provide proof of active, full-time teaching status by submitting a letter of confirmation from your university or other, verifiable confirmation of full-time status (note that a scanned university ID does not qualify).
- The student rate is intended to support full-time university students. To qualify, you must be a CTBUH Student Member and will be required to provide proof of active, full-time student status by submitting a letter of confirmation from your university, current transcripts, or other, verifiable confirmation of status (note that a scanned student ID does not qualify).
- Day 1 Half-Day Workshops: Delegates will choose one half-day workshop for Monday, which will be hosted at the conference venue.
- Day 4 Off-Site Programs: Delegates will choose one morning program and one afternoon program on Thursday, which take place within seminal tall buildings and urban spaces around Singapore. If attending the Kuala Lumpur Program on Day 5, delegates will have the option to choose a morning

program and the "Travel to Kuala Lumpur with CTBUH" option in the afternoon, to join CTBUH in one-way bus travel to the Kuala Lumpur program. If the delegate chooses to arrange their own flight to Kuala Lumpur in the evening, they can select both a morning and afternoon off-site program.

- Day 5 Kuala Lumpur Regional Program: Delegates can travel to Kuala Lumpur for a full day program and evening Networking Reception hosted within seminal tall buildings and urban spaces in the city. Travel and accommodations to be paid by delegates. However, delegates will have the option to join CTBUH in one-way bus travel to the Kuala Lumpur program as part of the Off-Site Program package (see note 5 above).
 - Registrations for the Opening Networking Reception, Sponsor Social Events, and Dinner can only be accepted for delegates registered for the 2-day Core Conference. Guests at sponsored Dinner Tables are not required to be registered for the Core Conference, but are required to submit details for name badges prior to the event.
 - Presenter/CTBUH Leader Registration: For presenters notified of accepted abstracts or CTBUH Leaders only. For each accepted presentation, only one presenter is entitled to the reduced registration rate.
- Cancellation Policy:** A 100% refund, minus a US\$100 cancellation fee (per delegate) will be given if written notice of cancellation is received by 19 August 2020. A 50% refund will be given after 20 August 2020–2 September 2020. No refund will be given for cancellation after 2 September 2020 due to costs incurred by CTBUH for each delegate at that time. No refunds will be given for those who register at an incorrect rate. No refunds will be given for those who do not attend the conference. If you cannot attend the conference, we are happy to accept a substitute colleague without penalty up to 23 September 2020. No substitutions are allowed after 23 September 2020. All refunds will be handled after the conference.

Reimbursement Policy: If a delegate wishes to change their booking and this is possible within the terms of the Cancellation Policy above, then a US\$30 administration and bank fee (per delegate) will be charged on any reimbursement refund.

Payment: Registrations are not confirmed until payment is received. If a payment is not received within 24 hours of registration, then the registration may be canceled. A 3% bank fee will be charged for all credit card payments; a US\$20 bank fee will be charged for all wire transfers.

Sponsorship Opportunities

Sponsorship Benefits

There are opportunities for sponsorship of this key gathering at Diamond, Platinum, Gold, and Silver levels. Each package includes exclusive sponsorship of a unique aspect of the conference (e.g., a Program Room, a Social Event, a Workshop, the conference delegate bags, a lunch or coffee break, etc.). Promote your company brand to industry leaders and develop collaborative partnerships and business leads!

Contact **Natalie Schoetz**, CTBUH Business Development Coordinator, for more information: nschoetz@ctbuh.org.

Why Sponsor?

- Promote your company brand to industry leaders
- Develop collaborative partnerships and business leads
- Understand better the business opportunities internationally
- Network with top influential people in the industry internationally
- Pursue a prominent speaking opportunity or a session chairing role
- Enjoy evening social networking events at top venues
- Be promoted to media and press outlets in conjunction with the conference
- Include your logo on all conference documentation
- Gain knowledge and insight in the latest thinking on sustainability, tall buildings, and urban development

Delegate Feedback

"All speakers were excellent, engaging, relevant topics, seeking to positively shift the paradigms of our industry."

—Dan Mitchell, Robert Bird Group

The CTBUH are passionate and understand the key challenges of our time, identifying the risks and disruptive changes brought about by technological transformation, economical issues, and climate change. This is not only a **fabulous platform to discuss, reflect, and challenge these issues** but also provides leadership, creating direction for us to think ahead."

—Paul Runaghan, Tall Design Studio

"A wonderful Conference! Well organized and totally worth the long travel. **Incredible opportunities for professional networking.**"

—Nirit Rosenstein,
Ashdar Building Company

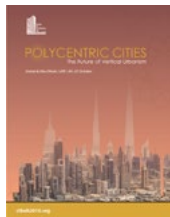

Previous CTBUH Conferences

The Council holds at least one conference per year in an active tall building city around the world. Below is a selection of proceeding covers from some of the Council's past events, spanning a history of 50 years.

About the CTBUH

The Council on Tall Buildings and Urban Habitat (CTBUH) is the world's leading resource for professionals focused on the inception, design, construction, and operation of tall buildings and future cities. Founded in 1969 and headquartered at Chicago's historic Monroe Building, the CTBUH is a not-for-profit organization with an Asia Headquarters office at Tongji University, Shanghai; a Research Office at Luav University, Venice, Italy; and an Academic Office at the Illinois Institute of Technology, Chicago. CTBUH facilitates the exchange of the latest knowledge available on tall buildings around the world through publications, research, events, working groups, web resources, and its extensive network of international representatives. The Council's research department is spearheading the investigation of the next generation of tall buildings by aiding original research on sustainability and key development issues. The Council's free database on tall buildings, The Skyscraper Center, is updated daily with detailed information, images, data, and news. The CTBUH also developed the international standards for measuring tall building height and is recognized as the arbiter for bestowing such designations as "The World's Tallest Building."

Local Conference Steering Committee

This committee is a group of CTBUH members based in the city where the Conference is located, who make a one-year commitment to assist with steering the overall direction of the conference, including helping organize speakers, sponsors, and off-site programs. Please note that committee members must be CTBUH members. To express an interest in joining, contact info@ctbuhconference.com.

www.CTBUH.org

"CTBUH conferences are THE tall building / urban conferences to attend, for learning of the latest advances in the typology, for considering the future of sustainable cities, and for business networking. We strongly encourage your attendance at this event."
